

Xpert® Xpress Strep A

Rapid, Quality Results. No Compromise.

→ Now you can have it all.

For In Vitro Diagnostic Use.

 **Cepheid.**
A better way.

Xpert® Xpress Strep A

The Need

Accurately diagnose pharyngitis caused by Group A Streptococcus (GAS).

- Annually, **616 million people** have GAS pharyngitis, **more than 18.1 million people develop severe GAS** disease and more than **517,000 people die** due to severe GAS disease.¹

Reduce overuse of antibiotics for the treatment of pharyngitis

- Based on recent literature **37% of children** presenting with pharyngitis tested positive for GAS, however **56% of visits were associated with antibiotic prescriptions**. Similarly, **18% of adults** presenting with pharyngitis caused by GAS, but **72% were treated** with antibiotics.²

The Impact

- Accurate diagnosis of GAS supports antimicrobial stewardship and may reduce the amount of patients inappropriately prescribed antibiotics.
- Gain testing efficiencies and reduce costs by eliminating culture confirmation testing.³
- Reduce the risk of GAS complications such as rheumatic fever and glomerulonephritis.
- Improve patient satisfaction with quicker time to result and appropriate prescriptions.

The Solution

- Cepheid provides on-demand testing for Group A Strep in **as soon as 18 minutes**.*
- Careful selection of the target gene produces quality results.
- Delivering accurate and timely results optimizes fast treatment decisions and eliminates the need to perform culture confirmation of negative results.

* With Early Assay Termination for positive results. Refer to Package Insert Xpert Xpress Strep A 301-6574 Rev. A.

“ National guidelines for Pharyngitis recommend antibiotic therapy only for streptococcal pharyngitis.²”

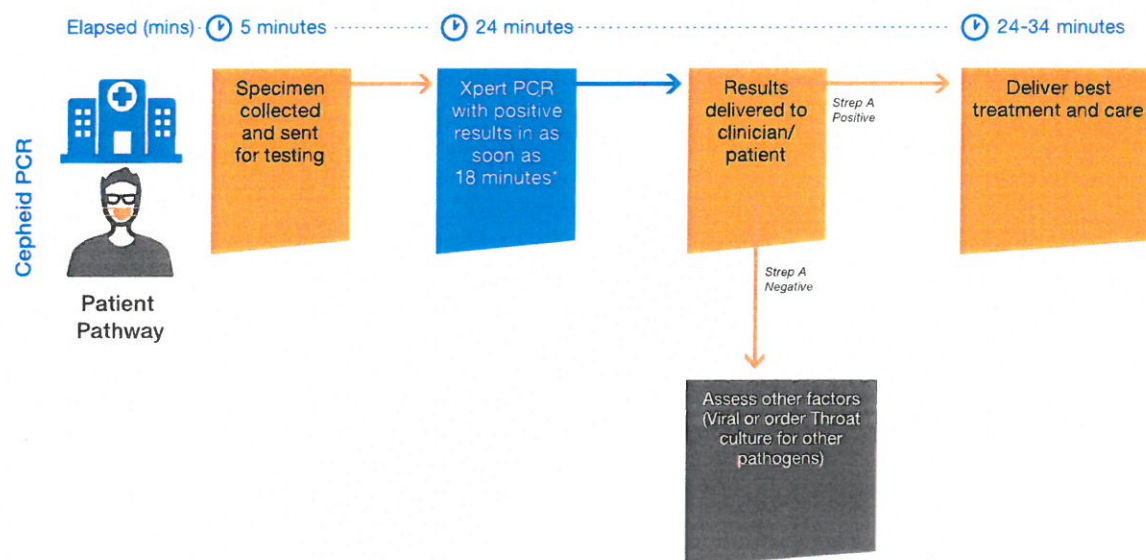

The Infectious Disease Society of America further clarifies that, with the rare exception of infection by certain *Corynebacterium diphtheriae* and *Neisseria gonorrhoeae*, antimicrobial therapy is of no proven benefit as treatment for acute pharyngitis due to organisms other than Group A Streptococcus.⁴

Impact on Outpatient Pathway

Improving Patient Satisfaction

Xpert® Xpress Strep A provides medically actionable and timely information to clinicians to support improved patient management and antibiotic stewardship.

* With Early Assay Termination for positive results. Refer to Package Insert Xpert Xpress Strep A 301-6574 Rev. A.

Xpert® Xpress

Powered by **Cepheid** Innovation

Xpert® Xpress Strep A is a qualitative real-time PCR test providing accurate detection of Group A Streptococcus in as soon as 18 minutes*.

Group A Strep Detection in 3 Simple Steps

1

Obtain throat swab specimen

2

Transfer sample to cartridge

3

Insert cartridge
and start test

True Automation for Group A Strep Testing

CATALOG NUMBER

Xpert Xpress Strep A (10 tests) XPRSTREPA-10

COLLECTION DEVICES (not included in kit)

Can be ordered through your local distributor

Coplan E-Swab in liquid Amies 480C

* With Early Assay Termination for positive results. Refer to Package Insert Xpert Xpress Strep A 301-6574 Rev. A.
